Health Commissioner Lederle's paper read by Dr William H. Park. It set forth that New York needs a safe milk supply and that "certified" or "guaranteed" milk is reasonably safe. But less than 1 per cent of the city's supply is certified and the problem. Dr. Lederle said, is to make the 99 per cent safe. To do this thirty-three inspectors are employed to inspect the 14,000 farms in six States, from fifty to 400 miles distant that supply the 15,000,-000 quarts needed daily in this city. Dr. Lederie suggested that milk be
